

## Nashville IMC Club Monthly Meeting

Not everyone can afford a glass panel in their aircraft, but the iPad revolution means anyone can have a moving map and backup altitude indicator for less money than a new TV. Having that backup is one thing, but using it to replace the installed equipment is something else. What would you do when faced with exactly that need? We'll also have our aviation App-of-the-Month segment, and discuss our upcoming IMC Club trips to Dayton, Pensacola, and Gatlinburg!

**Directions:** Meeting will be held at Nashville Flight Training. Please use map link to show location.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
